

One Piece Universal Strut Clamp

Steel

ELECMAN® EMT/Rigid One-Piece Strut Clamp is a specialized fastener designed to secure Electrical Metallic Tubing (EMT) or Rigid Metal Conduit (RMC) to strut channels (metal framing systems used in construction and electrical installations). These clamps are a single, rigid unit, making them quick to install and ideal for applications requiring durability and stability.

Type:

One piece

Material:

Steel

Surface Finish:

Zinc plated

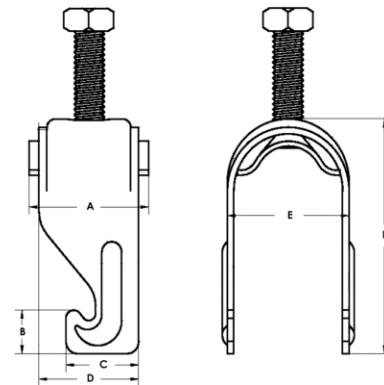

Certification & Standard

Manufactured to Underwriters Laboratory Safety Standards UL 514B
UL File No.: E541187

Dimensions:

The dimensions of one piece universal strut clamps are as indicated in Table 1.

Tabel 1 - Dimensions of One piece Universal Strut Clamp
